

Rhondda Cynon Taf residents want to know:

What exactly happens to their recycling when they place it out for collection?

A record number of visitors flock to Amgen Cymru's Visitor Centre, with over 3,000 people that have already paid a visit to find out all about recycling and what happens to their refuse.

Everyone who comes along participates in the "Rhys Cycle landfill safari"; people are amazed at what exactly goes on at the Bryn Pica Recycling Centre and Landfill Site above Llwydcoed in Aberdare. They also get shown information videos on recycling their cans, glass and household batteries together with the highly popular video "Oceans of Waste" by Tonyrefail Comprehensive School.

Amgen Cymru recently added a mini MRF (Materials Recovery Facility) for the younger children to try their hand at "Picking their recycling off a hand powered conveyor belt" This has proved to be a huge hit with the younger visitors.

Amgen Cymru is always looking to increase recycling participation and has found that when people can see for themselves that their recycling is put to better use people are willing to do that bit more to help their own environment.

To see what others have said about their visit why not take a look at the Amgen Cymru website ([Click Here](#)).

Why not book your visit now, whether it's a school, group, college, organisation or the individual, just ring 01685 372904 Monday to Friday. Book early to avoid disappointment. Transport is provided **FREE** to all that are based in Rhondda Cynon Taf.
